

## **Communication on the International Economics exam**

The exam is planned on Thursday 17/1/13 from 9 h until appr. 11 h. Location is Campus Schoonmeersen, room GSCH0.051.

The exam will be written and will be along the following lines:

1. Definitions (5 points)

You will be asked to define shortly (preferably in 1 sentence, maximum 3) 5 terms or concepts, f.i. 'effective rate of protection', 'foreign direct investment', 'forward rate',... It is a good idea to have a look at the relevant 'key terms' at the end of each chapter in the handbook.

2. A numerical problem on comparative costs that enables you to show your understanding of the concept. Have look at the relevant problems at the end of the relevant chapter in the handbook. Look on the internet for more problems. (3 points)

3. A graphical problem concerning protection. (3 points)

4. An open question on internal/external economies of scale (can involve graphics). (3 points)

5. A numerical problem on balance of payments/national income accounting. (2 points)

6. Multiple choice question on (covered) interest rate parity. (1 point)

7. An open question on the long run determination of exchange rates. (2 points)

8. A joker question (1 point) on any topic.
